Houston Notes

Aleksandr is very motivated. Even though that he has a lot of experience, he is always trying to learn more. He is always watching for new technologies and use them in his projects. Also Aleksandr is very responsive and always helps the team if they have questions or problems .

Our role-fit score is 9 out of 10.

Why Houston

We provide a full service 'remote team' including IT, corporate culture, HR management, performance management, escalation paths for issues, wifi, great working environment for team members – to be a successful part of YOUR team.

We also manage all tax, superannuation and other payments on your employee's behalf.

Additional resources are also available to 'bolt on' to the role if requested. These include:

- Quality Assurance
- Product Management
- Senior Developer Mentoring

Next Steps

1. Have a chat with Olga and we can organise a face-to-face interview.
2. If everything is good, we'll send through a contract and agree on a start date.
